Diagnostic	Diagnostic 2 (01/13/26)	● Three or More Grade Levels Below

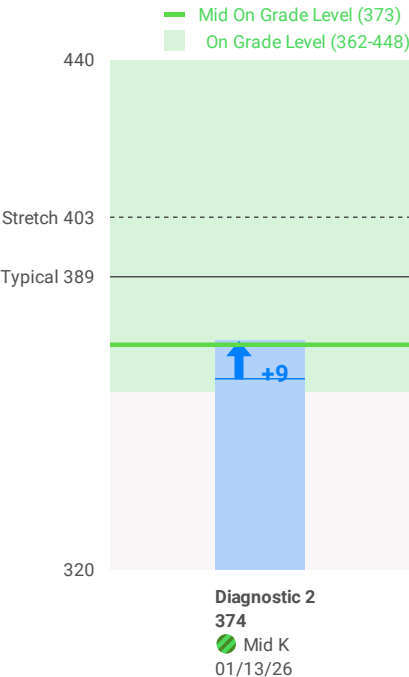

Diagnostic 2

Typical Growth

Typical Growth: The average annual growth for a student at this grade and placement level on their baseline Diagnostic.

Stretch Growth®

Stretch Growth: An ambitious, but attainable, level of annual growth that puts students who are not yet proficient (Mid On Grade Level or above) on a path toward proficiency and helps students who are already on track for proficiency to achieve or maintain advanced proficiency levels.

Placement by Domain

Test results indicate that Ada has strong math skills in all the tested domains. Ada would benefit from opportunities to develop these strengths through assignments that promote connecting concepts across domains to solve challenging non-routine problems. This recommendation places Ada in Instructional Grouping Profile 5.

Number and Operations

● Mid K
383

Subject	Math	Key
Student	Ada Chang	 Mid or Above Grade Level
Student ID	2037394	 Early On Grade Level
Student Grade	K	 One Grade Level Below
Date Range	Winter	 Two Grade Levels Below
Diagnostic	Diagnostic 2 (01/13/26)	 Three or More Grade Levels Below

Developmental Analysis

At placement levels K-2 this domain addresses counting, the base-ten number system, and the operations of addition and subtraction. Test results indicate that Ada has an appropriate understanding of numerals and basic counting. Ada may be ready to further develop counting skills, including counting by 1s and counting by 10s to 100.

Algebra and Algebraic Thinking

 Early K
372

Developmental Analysis

At placement levels K-2 this domain addresses fact families and using equations to solve addition and subtraction problems. Test results indicate that Ada may be ready to develop basic concepts of part-part-whole relationships leading toward early addition and subtraction concepts

Measurement and Data

 Early K
369

Developmental Analysis

At placement levels K-2 this domain addresses the concept of measurement units, especially for length and time. It also includes showing data on simple graphs. Results indicate Ada may be ready to develop a basic understanding of comparing and sorting objects by measurable attributes, such as length and weight.

Geometry

 Mid K
369

Developmental Analysis

At placement levels K-2 this domain addresses attributes of basic two- and three-dimensional shapes, relationships between shapes, and simple geometric terms. Ada's score indicates an ability to understand spatial relationships, describe two-dimensional shapes, and identify basic three-dimensional shapes. Ada may be ready to compare and contrast attributes of two- and three-dimensional shapes.
