2037394**What is i-Ready?**

i-Ready is an online learning program focused on reading and math. Ada has recently taken an i-Ready assessment at school. This report gives you a snapshot of your child's performance. For more information about i-Ready, visit i-Ready.com/FamilyCenter.

Ada's Overall Math Performance

Domain	Test (10/03/25)	Test (05/27/26)
Overall	At Grade K	At Grade K
Number and Operations	At Grade K	At Grade K
Algebra and Algebraic Thinking	Approaching Grade K	At Grade K
Measurement and Data	At Grade K	At Grade K
Geometry	Approaching Grade K	At Grade K

Additional Suggestions✓ **Discuss these results with your child**

Celebrate their strengths and progress, and collaborate with them on planning how they will reach their goals.

✓ **Reach out to the teacher**

Ask your student's teacher for additional insight into Ada's progress and for ideas and resources to support your student's learning at home.

Understanding Key Terms

Placement Levels are used to guide instruction in the classroom. Placement levels are based on Ada's level of performance overall and on each subtest, and they describe the optimum instruction level.

The four possible placement levels are:

- Above Grade Level
- At Grade Level
- Approaching Grade Level
- Needs Improvement

Scale Scores provide a single, consistent way to measure growth across grade levels and domains. You can use a scale score to compare a student's growth on different administrations of the i-Ready Diagnostic.

National Norms are percentiles that compare each student's performance with that of a nationally representative sample of students in the same grade level who took the test at the same time of year. For example, a student who has a norm of 60% on the test scored better than 60% of a nationally representative group of students who took the test.
